EDITION INTERIMAIRE

BULLETIN MENSUEL DE STATISTIQUE
Le 31 Mars 1948 ■ Vol.II No.3

The work-stoppage in the printing trade in New York, which now extends beyond the period of normal publication for the March issue of the MONTHLY BULLETIN OF STATISTICS, has made it necessary for the Statistical Office to prepare this interim issue as an emergency measure.

The interim statement merely brings up-to-date the series contained in the regular February issue. The lists of additional statistics therefore refer to the table numbers in the February issue.

Revisions of earlier figures, new series, new tables, and charts -- all scheduled for the March issue -- are not included. These will appear, together with later figures for all series, in the next regular issue of the Monthly Bulletin which is expected to be the April issue.

L'arrêt du travail chez les imprimeurs de New York se prolongeant au delà de la date habituelle de publication du BULLETIN MENSUEL DE STATISTIQUE pour mars, le Bureau de Statistique a décidé de publier un numéro intérimaire.

Ce numéro intérimaire ne fait que mettre à jour les séries parues dans le numéro régulier de février. Les références aux tableaux se rapportent à ceux du Bulletin de février.

On a par conséquent exclus les révisions de chiffres, les nouvelles séries, les nouveaux tableaux et graphiques prévus pour l'édition de mars, qui seront repris dans le prochain numéro régulier devant paraitre en avril.

Il n'a pas été possible, à cause des circonstances et du manque de temps, de préparer une édition bilinque.
